**Biography :**

Nadine Beauger is Chief Executive Officer at the Institute for Research in Immunology and Cancer – Commercialization of Research ([IRICoR](#)). Before this appointment, Dr. Beauger was Vice-President - Scientific Liaison (intellectual property (IP), academia-industry relations) at the same organization that she joined in 2009. She was instrumental at building IRICoR's project portfolio and related IP practice and strategy, which have led to successful licensing agreements and partnerships with industry. She has brought to IRICoR over 15 years of experience in technology assessment and transfer, venture capital, intellectual property and project portfolio management, due diligence, and clinical and biotechnological research with thorough experience in both the private and the academic sectors.

Dr. Beauger began her career as a Patent Consultant at Robic, where she undertook drafting, prosecution and IP strategic management. She went on as Associate at VantagePoint Venture Partners, a leading California-headquartered venture capital firm. Just prior to joining IRICoR, Dr. Beauger was Business Development Manager at Paladin Labs Inc, a top specialty pharmaceutical company based in Montreal.

She holds a Ph.D. in Biomedical Sciences (Hematology and Oncology), an M.Sc. in Cellular Biopathology from Université de Montréal and a B.Sc. in Anatomy from McGill University. She also holds an MBA degree from HEC Montréal (Excellence Studentship Award). Dr. Beauger is a member of the Board at CHU Ste-Justine Foundation and a member of the Association of University Transfer Managers (AUTM).
